ARIN PUBLICATIONS *(For details on the publications see the Annual Reports.)*

Core Curriculum for Radiologic and Imaging Nursing

The third edition is currently in a final editing phase and will be published in 2014. Kathleen Gross, MSN, RN-BC, CRN is the *Core* editor and reports the Core Curriculum has increased to over 1025 pages with nine new chapters. This reflects the growth and advances in the field of radiology and radiology nursing!

Journal of Radiology Nursing

Kathleen Gross is the editor of the *Journal of Radiology Nursing (JRN)* and continues to produce an outstanding publication for Radiologic and Imaging Nurses. This year the range of topics has grown with new columns on advanced practice and safety. The website www.radiologynursing.org has been updated and is the portal for the *Journal of Radiology Nursing*. The *Journal* is now available as a smartphone app. The *JRN* Editorial Board meets annually and awards the Linda Strangio Editor's Award to the outstanding publication for the year. For more detailed information on the Journal, Editor and Editorial Board activities, please see the ARIN website. The Call for Editorial Board members will appear in the September issue.

Vision Newsletter

Sharon Lehmann, MS, ACNS-BC continues to serve at the *Vision* Editor. When the Board of Directors met in November 2013 to develop ARIN's strategic plan for 2014-2016, the discussion included ideas to enhance the *Vision* newsletter to better meet the needs of the membership. *Vision* will now be published 6 times a year, instead for 4. We want to keep the issues shorter to not overwhelm the members and keep their interest. The Executive Director and President will alternate writing a message to the membership. We want to write short practice articles that are "hot topics" of interest to the membership. Many of the ideas will be taken from the listserv. We want to keep our membership informed on governmental affairs, news about what meetings other members are sent to, and chapter news.

Names of the new joining members will be listed. Newly certified and renewing CRN imaging nurses will also be listed. We also want to hear from the members about promotions you receive, degrees you have completed, articles you have published, and other certifications you have completed.

Radiology Nursing: Scope and Standards of Practice

The ARIN Board, with assistance from the American Nurses Association (ANA), meticulously revised the *Radiologic and Imaging Nursing: Scope and Standards of Practice*. This document outlines the definitions, competencies, roles and responsibilities of the Radiologic and Imaging Nurse as well as the Advanced Practice Nurse. This is a joint publication of ANA and ARIN and is available for purchase at the conference as well as on the ARIN website.

The following ARIN publications are available for purchase:

- *Core Curriculum for Radiologic and Imaging Nursing*, 2nd Edition (2008) — also available in CD ROM format.
