

## Association for Radiologic & Imaging Nursing Report

**Date:** 2/27/2014

**From:** Tabatha Fairchild RN

**Committee/ Work Group/Liaison Role/Staff Role:**

Website Committee/ Website Editor

**Date of Last Action or Meeting (as applies):**

3/18/2014

### **What has the committee done? What happened in the transition?**

Change in management company, member login down on site, loss of templates and programs from original company, months of unavailable member login time.

Finalization of **website** Feb 2014, Live with member action site, new graphics, more user friendly and appealing. Webinars upfront on webpage.

Overall a busy but prosperous and rewarding year.

### **What is the status of the website?**

The website is active. All links are being checked biweekly or monthly by committee for accuracy.

### **What is good and what needs work?**

Our management company is working on Phase 2 which will include member download of pics to be posted to site after administrator approval. We are also interested more social media capabilities.

Attempting to send out a member survey re: social media usage. Would like to attempt a blog.....Don't have a fulltime volunteer blogger available at this time...suggestions welcome.

Continue to review new site and update as needed. Committee will meet the 3<sup>rd</sup> Tue monthly.

No meeting Feb due to new site available 3<sup>rd</sup> Mon of the month, therefore no time to review

before meeting. However daily reviews done and problems noted and reviewed with management company.

**>What do you need from the Board moving forward?**

Continued support with changes.

**>What can we do to help you?**

We will be asking for more volunteers at the convention, see us at the webinar table on Monday night in San Diego.

We need more help monitoring site and checking links for accuracy.

The site has evolved and will continue to progress with new technologies.

**Any ideas on the cost of the project?.....None**

**Any estimates of cost moving forward?.....No**
